**Sunday, August 22, 2021**

"Therefore if you have any encouragement from being united with Christ, if any comfort from his love, if any common sharing in the Spirit, if any tenderness and compassion, then make my joy complete by being like-minded, having the same love, being one in spirit and of one mind. <sup>3</sup> Do nothing out of selfish ambition or vain conceit. Rather, in humility value others above yourselves, <sup>4</sup> not looking to your own interests but each of you to the interests of the others." Philippians 2:1-4 NIV

## Organ Donation-Kidney

Union Chapel Church family let us come together and celebrate God's faithfulness in giving our beloved Pastor, Dr. O. Wendell Davis a kidney. God has truly answered our prayers. September 17, 2021 will be one year when he received his kidney. So to commemorate this blessed occasion, we are asking the membership to come out and participate in a drive by celebration to show our Pastor how much we love and are thankful to God for the love He has bestowed upon each of us in giving our Pastor a kidney that he might continue to labor in God's vineyard in ministering to God's people.

Union Chapel Church family let us come together and celebrate!

## HEALTH AWARENESS-AUGUST

National Immunization Awareness Month (NIAM) is an annual observance held in August to highlight the importance of vaccination for of all ages.

Vaccines are recommended for adults based on age, health conditions, job, and other factors.

### **Why Vaccinate?**

Parenting is an amazing, but often challenging, journey. With every milestone, you face new questions. How can you keep your child safe? How can you help them grow? The right choices aren't always clear. Like many parenting topics, vaccination can feel overwhelming at first. The good news is there are clear recommendations, backed by extensive research.

- v. Vaccination is a highly effective, easy way to keep your family healthy.
- v. On-time vaccination throughout childhood is essential because it helps provide immunity before children are exposed to potentially life-threatening diseases.
- v. Vaccines are tested to ensure that they are safe and effective for children to receive at the recommended ages.
