Happy Father's Day

Today, Union Chapel is celebrating both Mother's Day and Father's Day

Church-Wide

We celebrate Mother's Day in May and Father's Day in June, but did you know that National Parents' Day is the

4th Sunday in July? For all you do and all you have done from birth...the unconditional love you have shown your children, for being teacher, protector, provider and more...we thank God for you.

"The Lord is my strength and my shield; my heart trusts in him, and he helps me.

My heart leaps for joy, and with my song I praise him." Psalm 28:7 NIV

Church Re-gathering

O give thanks unto the Lord! We are truly thankful to move into Phase 2 of re-gathering, welcoming **250 fully vaccinated** members back into the sanctuary. **Fully vaccinated** members will have had their second or only shot **by June 6, 2021**. If you desire to worship with us in the sanctuary on Sunday, please register on the church's website, individually, or as a family. Members ages 16 and older **MUST** provide proof of vaccination. You may provide your vaccination card to the church office **Mondays-Thursdays, 9:00am-4:00pm, and on Fridays, 8:00am-12:00 noon**, or you may present your card before entering the church on Sunday. Children ages 15 and younger are also welcome and will have their temperatures checked before entering the worship service. We look forward to seeing you on **Sunday, beginning at 8:15 am, for the 9:00am worship service.**

HEALTH AWARENESS

Alzheimer's and Brain Awareness

Make Alzheimer's a national priority and create widespread awareness of this devastating disease. **GO PURPLE!** Purple is the official color of the Alzheimer's movement

Experts haven't determined a single cause of Alzheimer's disease but they have identified certain risk factors, including:

- **Age.** Most people who develop Alzheimer's disease are 65 years of age or older.
- **Family history.** If you have an immediate family member who has developed the condition, you're more likely to get it.
- **Genetics.** Certain genes have been linked to Alzheimer's disease.

Having one or more of these risk factors doesn't mean that you'll develop Alzheimer's disease. It simply raises your risk level.
