## HEALTH AWARENESS

The purpose of Men's Health Month is to heighten the awareness of preventable health problems and encourage early detection and treatment of disease among men and boys. **WEAR BLUE**

### Alzheimer's and Brain Awareness

**GO PURPLE!** Make Alzheimer's a national priority and create widespread awareness of this devastating disease. **Purple** is the official color of the Alzheimer's movement. Experts haven't determined a single cause of Alzheimer's disease but they have identified certain risk factors, including:

- **Age.** Most people who develop Alzheimer's disease are 65 years of age or older.
- **Family history.** If you have an immediate family member who has developed the condition, you're more likely to get it.
- **Genetics.** Certain genes have been linked to Alzheimer's disease.

Having one or more of these risk factors doesn't mean that you'll develop Alzheimer's disease. It simply raises your risk level.
